## FEMALE PRODUCTION SALE

SATURDAY ∞ NOVEMBER 10, 2018  
1:00 P.M.

ANDERSON COUNTY SALE COMPANY  
GARNETT, KANSAS

[WWW.SFFARMS.ORG](http://WWW.SFFARMS.ORG)

# S F FARMS, INC. FEMALE PRODUCTION SALE

## SATURDAY ∞ NOVEMBER 10, 2017 ∞ 1:00PM

### SALE LOCATION

Anderson County Sale Company • 785.448.3800  
Hwy 59 at Park Road, Garnett, KS 66032  
**DIRECTIONS:** Sale facility is located on North  
Hwy. 59 at Park Road

### SALE DAY PHONES:

Anderson County Sales Company 785.448.3800  
Jodi Froggatte-White 785.418.1986  
Stephen White 785.418.0895

### TERMS AND CONDITIONS:

Cattle will sell under the suggested Terms and Conditions of the American Angus Association ([http://www.angus.org/Pub/suggested\\_sale\\_terms.pdf](http://www.angus.org/Pub/suggested_sale_terms.pdf)). We guarantee that all breeding cattle sold by S F Farms, Inc. are fertile at the time of the sale. To guarantee buyer satisfaction, the seller guarantees that all bulls are breeders for a period of 90 days following the turn out with the buyer's herd. A bull that settles a cow by natural service and passes a fertility test performed by a veterinarian will be considered a breeder. We will provide a satisfactory replacement (if available) or issue credit at a future S F Farms, Inc. sale equal to the bull's purchase price less salvage value. If a problem arises, please contact S F Farms, Inc. before you cull the animal so that arrangements can be made. This guarantee will not replace a dead animal if it is killed or dies for any reason. We suggest normal care needs to be exercised for any animal purchased and that yearling bulls not be allowed to get too thin.

### LIABILITY:

All persons who attend this sale do so at their own risk, legal or otherwise, for their safety or for the behavior of the animals. The owners, sale management firm, and the sale staff assume no liability for property loss or any accident that may occur.

### HERD HEALTH:

All cattle have had Ivermectin Parasite Control, Blackleg (Vision 7 Somnus), Prespense HM, IBR, BVD, BRSV (Virashield 6) and P13.

### ULTRASOUND DATA:

Ultrasounds were conducted by Rowdy Layton of Layton Ultrasound Service, a UGC & CUP Certified Technician. 918.788.3676.

### SEMEN TESTING:

Semen testing was performed by Ottawa Veterinary Hospital in Ottawa, Kansas. 785.242.3538.

### LOADING PURCHASED LOTS:

We will stay until 5:00 p.m. the day of the sale to load cattle. If you plan on leaving your purchased lots at S F Farms, Inc. past Sunday, we would be pleased to make arrangements with you\*.

### \*HOLDING PURCHASES

We are willing to keep your purchased lots, however, there will be a charge of \$3.00 per day, per head, for keeping livestock.

### SUPPLEMENTAL INFORMATION:

Supplemental information will be available sale day. Ultrasound and yearling weights will be available on heifers and bulls with scrotal measurements available on yearling bulls. Data will be taken prior to the sale and available on the day of the sale. Please contact us if you need any further information. Photos and/or video of animals are available if needed.

### EPD EXPLANATION AND UPDATES:

Updates and an explanation of EPDs are available through the American Angus Association website, <http://www.angus.org>.

### FOOD AND REFRESHMENTS:

A complimentary meal will be provided at 12:00 p.m. and will be served until 12:45 p.m. Also, a drawing for a selection of prizes will occur before the sale begins. Tickets for the drawing will be given to each person that signs up for a bidder number.

## Welcome to the 2018 SF Farms Annual Female Sale!

We have made some changes in the way we are running our sale this year. We had a lot of positive feedback from the bull sale, so we are planning to continue. We truly appreciate the help of Ron & Christy and the opportunity to use their facility.

We are offering a young set of females in this year's Production Sale. We continue to work hard to produce easy fleshing females, that are docile, have excellent maternal characteristics, with longevity that will be a productive part of your program for years to come. We strive to focus on our genetic base through all the information we have available through the Angus Association. We have been a member of the AHIR (Angus Herd Improvement Records) for several years, which provides us with the opportunity to continually improve our performance.

This year has certainly been one for the books, trade agreements, fake meat, drought and flood. It is truly amazing how those of us in agriculture are very different from other people, and if you are not a part of it on a day to day basis its hard to understand what are lives are like. Maybe we are just too stubborn to give up, but not doing it doesn't seem to cross our mind. We continue to strive to improve what the generations before us have developed. We offer you the cow families that have stood the test of time for us, we strive to continue to improve our herd as we improve yours...

*The Froggatte Family*

### What makes a pathfinder...

1. To qualify, a cow must have produced at least 3 calves with an average weaning ratio of 105 and these calves must have been evaluated with at least nine other herd mates.

2. Beginning with her first calf, all calves must have been recorded in AHIR (Angus Herd Improvement Records). No irregular weanings or calves by commercial sires are used in analysis.

3. A weaning weight must have been processed on a cald.

4. A cow must have had her first calf at an age equal to or less than the average age of the herd at first calving, plus 30 days.

5. To qualify for subsequent listings in the report, she must maintain a regular calving interval, which is determined as follows:

$$\frac{30}{\# \text{ of Calving Intervals} + 365} = \text{Maximum Calving Interval}$$
